

I have been listening to K-LOVE for over four years. I have been a K-LOVE supporter each month for the last three years, which helped to expand its listening area and frequency to my area. K-LOVE is very different than any other radio station. K-LOVE is positive and encouraging without paid commercials. It promotes great family values through its music and public service. I can call in a prayer request and know that someone will pray for my request that day. I am not worried about hearing curse words in lyrics and having to change the station. I have always been uplifted by the wonderful music. I listen to K-LOVE every chance I get. I even fall to sleep with my radio on K-LOVE every night knowing that God is here with me. I have a better outlook on life. Other K-LOVE listeners feel the very same way. I would hate to lose my K-LOVE station. I would much rather continue to support a radio station that can reach many people than spending my money to purchase CDs that only my family and I can listen to each day. Please allow K-LOVE to continue as is and not be replaced by LPFM. Thank you for your time in considering my request. Have a great day! May God bless you and yours.
